The device is not suitable for diving or swimming in the sea; and not suitable for hot water baths, hot springs, saunas, etc

# User Manual

## Notes:

1. The company reserves the right to modify the contents of this manual without prior notice. It is normal for some functions to vary in certain software versions.
2. Please charge this product using the provided cable for no less than 2 hours before use.
3. Before using the product, you need to connect the app to synchronize the time and set your personal information.
4. This product has an IP68 waterproof rating but is not suitable for deep-sea diving. Exposure to hot water, tea, or other corrosive liquids can damage the watch and will void the product warranty and free maintenance services.

## How to wear

Please wear the device on your wrist correctly, about one finger from the carpal and adjust it to comfortable position. Below picture as reference.

**Tip:** Please wear the device a bit little tighter when heart rate monitor.

## How to Download & Connect to APP

**methods to download & install APP:**

A. Find the QR code on setting page. Turn on the watch, open “Settings—About—Download QR code” , scan QR code to download and install “ LT Watch+” APP

B. Scan below “LT Watch+” QR code to download and install “ LT Watch+” APP

C. Search “LT Watch+” in App Store or Play Store to download and install “ LT Watch+” APP

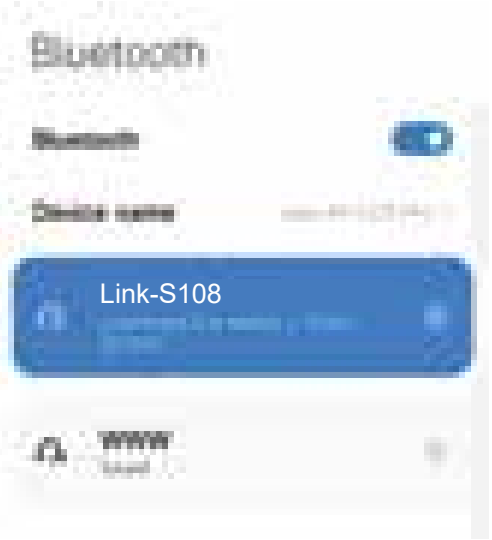

## Connection Binding

**(1)** Open LT-Watch+, click on "Add Device" on the device page. Add the device by means of Bluetooth search, and follow the instructions on the screen to proceed with the operation.

**(2) How to connect to BT call feature**

**For Android phones,** after the APP and the watch are successfully bound, it will automatically prompt whether to pair with LINK-S108. You can pair directly.

**For IOS phones and some Android phones,** after the APP and the watch are successfully bound, when using the phone function, you need to manually enter the phone settings-Bluetooth-search LINK-S108, click pair LINK-S108, and the phone function can be used normally after the pairing is successful.

## Tips:

1) Please upgrade the APP to the latest version to get a better experience.
2) The system requires Android 5.0 or IOS 9.0 or above.
3) For the first time connection with iPhone, “Pair” reminder will pop-up, click to pair, then incoming calls and instant messages will be pushed.
4) For the first time connection with android, “Permissions” reminder will pop-up, please follow up the guidance and allow permissions to ensure all functions working properly.
5) To connect successfully, please turn on mobile phone’s Bluetooth, GPS and network.
6) If the device cannot be found during the device adding process, or the device cannot be connected during use, please try to turn the device off and then on again, or select factory restore in the watch system operation interface, and then add the device again.

## Function Introductions

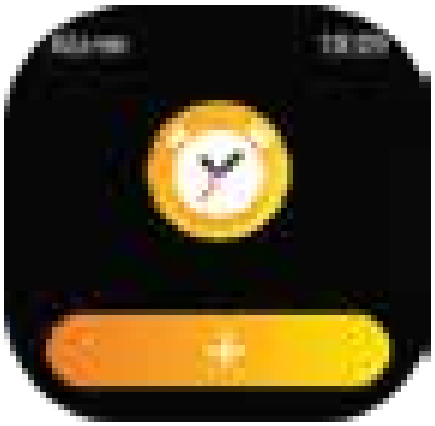

| | |
|---|---|
|  | **Activity:** Detailed record of steps, calories, and exercise duration for the day. More detailed information analysis and data records can be viewed in the APP. |

| | |
|---|---|
|  | **Sleep:** You can record the total sleep time of last night and the duration of deep sleep and light sleep. More detailed information analysis and data records can be viewed in the APP. |
