## Step Into Pairing Mode

1. Press and hold the MFB for 2 seconds to power V82 Bluetooth headset on and automatically enter into pairing mode, the V82's LED will flash in ice blue color. Turn on the Bluetooth in your mobile phone, search for the headset "Link-V82" and tap to connect it with mobile phone.
2. If your phone lost the Bluetooth connection or you want to connect with other phone, press the MFB for 2 seconds to go into pairing mode again (the LED will be flashing in ice blue color) with breathing LED flash ice blue, remember to turn off other Bluetooth devices to avoid interference.
3. If the headset could not connect with any device within 5 minutes, it will power off automatically.

**Tips: Wearing headset on left and right ear alternatively can reduce fatigue in ears.**

## Reconnect With The Paired Mobile Phone

After the initial successful pairing, we can press MFB for 2 seconds to power on and the headset will intelligently connect with the paired mobile phone (Some phones need to confirm connection).

## Learn How To Reset

When headset is in charging, long press the MFB until LED indicator flashes red and blue twice simultaneously.

## Charging

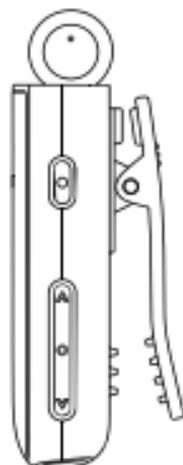

1. Using Charger: just use original charge cable that came in box to make ensure safety).

Please do not use headset during charging.

2. During charging, the red indicator will be on.

Press the MFB once to see the percentage of charging power.

3. After headset is fully charged, red indicator will be off. LCD will show "100".

## Three-way Calling

If you are in a call, and there is another call:

1. Press the MFB twice to hold the current call and answer the incoming call.
2. Double click the MFB to switch between two calls and press MFB once to end the current call and switch to the other call.

**Note:** To use the above functions, your mobile phone must support Bluetooth Hand-Free Mode 1.5, and Call Waiting feature must be supported and activated on both of your phone and service network.

## Support Two In One

First, let headset successfully connect with the first device. And turn off the Bluetooth on the device to let headset enter into pairing mode. Then let headset connect with the second device. Finally, open the Bluetooth of the first device and tap to connect again. Both devices could connect with headset.

**Note:** Keep the device within a distance of 0.3 m during pairing process.

### Safety and Care:

1. Keep the headset away from extreme heat and humidity, high heat will decrease the lifespan of the headset and battery.
2. This headset should be charged at least once every 6 months.
3. Clean with a soft cloth, damp with diluted soap water solution if necessary, never use chemical cleaners.
4. Do not drop the headset on hard surfaces.
5. Do not take the headset apart or try to disassemble it.
6. When not in use, power the headset off and store in a cool dry place.
